5 Gronneman

Date Drilling Began: 10-18-1968 *****

Date Drilling Completed: 11-17-1968

Hole completed as (check): Dry ;

Oil ; Gas ; Service well

Total depth of hole: 195.6

Name of formation at total depth: Peru

If OWWO*, give new footage drilled: _____

Field Name: East Hepler

Name of Company purchasing oil or gas: Mid-America Refg. *****

Initial Potential or Production: Barrels of oil/day 1;

Barrels of water/day None; Thousand cu ft gas/day None

Oil Gravity 30 °API; Pay Depth (Bottom) 195.6

Net Pay Thickness 7 1/2 Ft.; Name of Pay Zone Peru

See other side for log
Please show location of well in section:

Elevation: Derrick floor 1022

Kelly Bushing _____ Ground _____

Electric or other logs were run: Yes _____ No

Well was Cored: Yes No _____

Drill Stem Test Run: Yes _____ No

Please use other side of sheet for additional information. Copy of driller's log, electric logs, and other well information would be appreciated. (* OWWO - Old hole re-worked or deepened.)

The AAPG's Committee on Statistics of Drilling (CSD) on January 1, 1966 began compiling data on wells reported drilled in the U. S., Canada, and Mexico. The Oil and Gas Journal has contracted to publish weekly statistical summaries of the data. These will be used by the International Oil Scouts Assoc. American Petroleum Inst., U. S. Bureau of Mines, and other groups, and will be considered the official source of drilling information by the U. S. Department of the Interior.

Many of the wells drilled in southeastern Kansas are not presently scouted. Because of this the CSD District 12 Chairman is sending this Well Completion Report form to all operators who have stated their intent to drill a well. The information received will also be placed on open file in the Oil and Gas Division offices of the State Geological Survey of Kansas. The cooperation of all of the operators in returning the completed form will be greatly appreciated.
