\*\*\*\*\*

Date Drilling Began: 3-2-67

Date Drilling Completed: 3-4-67

Oil or gas test was completed as a dry hole:

Name of formation at total depth: BART

Total depth of hole: 418

Plug back total depth:

If OWWO, give new footage drilled:

Field Name: WALNUT

Name of Company purchasing oil or gas: C

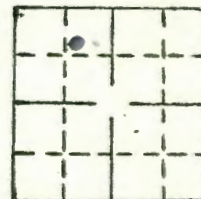

Initial Potential or Production:

Barrels of water/day NONE

Oil Gravity 30 °API;

Net Pay Thickness 13 Ft.;

Please show location of well in section:

Elevation: Derrick floor

Kelly Bushing Ground

Electric or other logs were run: Yes No ✓

Well was Cored: Yes ✓ No

Drill Stem Test Run: Yes No ✓

Barrels of oil/day 1

Thousand cu ft gas/day

Pay Depth (Bottom) 412 399-412

Name of Pay Zone BART.

Please use other side of sheet for additional information. Copy of driller's log, electric logs, and other well information would be appreciated.

The AAPG's Committee on Statistics of Drilling (CSD) on January 1, 1966 began compiling data on wells reported drilled in the U. S., Canada, and Mexico. The Oil and Gas Journal has contracted to publish weekly statistical summaries of the data. These will be used by the International Oil Scouts Assoc., American Petroleum Inst., U. S. Bureau of Mines, and other groups, and will be considered the official source of drilling information by the U. S. Department of the Interior.

Many of the wells drilled in southeastern Kansas are not presently scouted. Because of this the CSD District 12 Chairman is sending this Well Completion Report form to all operators who have stated their intent to drill a well. The information received will also be placed on open file in the Oil and Gas Division offices of the State Geological Survey of Kansas. The cooperation of all of the operators in returning the completed form will be greatly appreciated.
