NEED ADDITIONAL SPOT LOCATION OK

Date Drilling Began 12-15-65 Date Drilling Completed 12-23-65

Hole T.D. 1112 P.B.T.D. _____ if OWWO, new footage drilled —

Elev.: DF — KB — Ground — Oil or gas test was completed as dry hole —

Deepest Formation penetrated Bartlesville Hole was not drilled —

Electric or Other Logs Run: Yes X No _____ Well was Cored: Yes X No _____ Drill Stem Test Run: Yes _____ No X

Field Name Neodesha This is a New Field NO Field Extension X New Pay Zone _____

Oil or Gas Purchaser: Maple oil co.

Initial Potential or Production: X BOPD, _____ BWPD, _____ Mcfg/day. Oil Gravity 39

Pay Depth (Bottom) 1051, Net Pay Thickness 15 Ft., Pay Formation 1st Neodesha (Bartlesville)

Please use other side of sheet for additional information. Copy of driller's log, electric logs, and other well information would be appreciated.

well not completed yet. Probably in June

The AAPG's Committee on Statistics of Drilling (CSD) on January 1, 1966 began compiling data on wells reported drilled in the U. S., Canada, and Mexico. The Oil and Gas Journal has contracted to publish weekly statistical summaries of the data. These will be used by the International Oil Scouts Assoc. American Petroleum Inst., U. S. Bureau of Mines, and other groups, and will be considered the official source of drilling information by the U. S. Department of the Interior.

Many of the wells drilled in southeastern Kansas are not presently scouted. Because of this the CSD District 12 Chairman is sending this Well Completion Report form to all operators who have stated their intent to drill a well. The information received will also be placed on open file in the Oil and Gas Division offices of the State Geological Survey of Kansas. The cooperation of all of the operators in returning the completed form will be greatly appreciated.
