

April, 1934.

Signal #1 Rude,
NE SE SE, 28-15S-13W, PC
Elevation ~~1895'~~
1890 DF (Printed)

Pennsylvanian conglomerate 3328-3345'
3328-3331 Clay shales, green.
3331-3345 Clay shales, maroon and green.

Ordovician	Top 3345'	Sub-sea, minus 1450'
Arbuckle	" " Penetration 7'	" " " "
3345-3352	Pre-Cotter. One sample, filled with caving.	
	Without other wells in the vicinity, it would	
	be impossible to correlate. However, the	
	similarity with nearby wells indicates pre-	
	Cotter age.
