

April 1943

✓
Sinclair, # 1 Martha Laudick
Sec. 21-16s-11w, NW/c
Elev. 1878'

Rotary to 3300'

Pennsylvanian conglomerate

None. Clean buff marine limestone cover.

Arbuckle Top 3298' Penetration 7' Subsea -1420'

3298-3303 Dolomite, white, coarsely crystalline.
Post Boyce.

3303-3305 Dolomite as above but with 10% quartzose chert.

Remarks: The restored top of the Pre Cotter is above -1420', perhaps
at 3290' or - - - - - Subsea -1412' E
~~THE RESTORED TOP OF THE PRE COTTER IS ABOVE -1420', PERHAPS~~
This figure may be as much as 10' too low.

Test made a maximum well.
