YOUNG #1-13

C NE

Section 13-18S-21W

Ness County, Kansas

SUMMARY AND RECOMMENDATIONS

This well was drilled as a Chase gas well. No samples were examined. Log analysis and structural position indicate probable commercial gas production from the Chase. Based upon available data 4 ½" production casing was set.

Pipe was set 4 feet off bottom @ 2446'. The following zones are recommended for testing.

1. Chase 2176-2186
2. Chase 2230-2234

Measurements were taken from rotary kelly bushing (8 feet above ground level).
Logger's measurements are taken as correct.

Respectfully,

Scott Corsair
Petroleum Geologist
