

0E1992

November 1940

Darby Petroleum, No. 1 McPherson College
NW SE SW 13-208-2^W
Elevation 1536 feet

Cable-tool dry hole, very poorly sampled.

Ordovician

Simpson

to 3522 feet Sandstone and glauconitic sandy shale.

Arbuckle Top 3535 feet. Datum 1999 feet subsea. Penetration 271 feet.

3522-3600 feet Miller-Purcell dolomite. Sandstone just above
3600 feet may mark base Purcell.

3600-3715 feet Cotter cherty dolomite.

3715-3793 feet No samples. Presumably Cotter.

Remarks:

The Arbuckle top is raised 23 feet above previous call by Price.
