Friday, February 2, 1979 at 1:15 p.m., while drilling a 12½" hole for the purpose of setting surface casing, H-30 Drilling, Inc. encountered a shallow gas zone at approximately 220'. A blowout occurred and the resultant fire destroyed the rig. By mutual consent between H-30 and Tomlinson Oil Co., Inc., H-30 has elected not to drill the #1 Robben. Gabbert-Jones, Inc. will be the new contractor and operations on the #1-aRobben should resume about February 28.
