We have a first report of 8-22-56 for this same well in this location. We have been unable to find a completion ticket for this location. May we have one if the well is complete?

We have now received a first report ticket of 2-13-57 showing this same well. Will you please advise if this is a work over of the 8-22-56 location or if this ticket can be a duplicate? Thanks.
