Describe in detail the manner in which the well is plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same depth placed from (bottom), to (top) for each plug set.

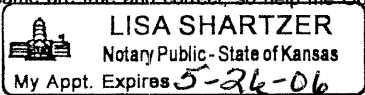

Set 6 feet 18" surface pipe in raw hole. Drilled well to 300 feet hit iron. Ran 1 inch pipe to 300 feet and filled well to surface with 183 sacks of portland cement. Let well set overnight and topped off well with 25 sacks of portland cement. A total of 208 sacks used to plug well.
