Attention: Mr. J. P. Roberts

Dear Sir:

Your notice in regard to the plugging and abandonment of the Northern Ordnance Inc., John Jansonius (Ruys) No. 1, came to our attention and we wish to express regret that such prompting became necessary, however, fully realizing its justification.

Our instructions require that all matters pertaining to the Northern Ordnance wells be directed through the Seminole office, thence to the Tulsa office and Northern Ordnance for final signatures. Naturally, such procedure involves considerable delay. Nevertheless, the proper attention is being directed toward this delay in order that more direct channels may possibly be opened for earlier clearance. The necessary records on the Jansonius (Ruys) No. 1 well have cleared this office, but plugging data on other wells drilled for the same company are being equally delayed. Attached please find the well log for our Neuschwanger No. 1, delayed through an oversight on our part.

As a matter of assisting in the expedition of these records, our local efforts are being redoubled to prevent unnecessary delay in this office. Any further suggestions on the part of the Commission will be highly appreciated.

Very truly yours,

THE CARTER OIL COMPANY
