In re: Well No. 1  
Farm: Johnston  
Description: SW SW NE 5-6-19W  
County: Rooks  
File: 124-18

Gentlemen:

We have today forwarded letter, invoice and application for plugging in connection with the above-mentioned well which was sent to us from your office on December 9th, to the Cities Service Oil Company at Bartlesville, Oklahoma.

This was their well, and while we ordered the plugger and have since advised him to make the charges to the Cities Service Oil Company, apparently he had not received these instructions when making his report to your office. Consequently, we thought it would be advisable to mail the forms and invoice directly to the Cities Service people so they would have the information on hand at the earliest date possible.

Yours very truly,

HARBAR DRILLING COMPANY
