Lease Name Rush Well No. "C"

Location NW/4 Sec 15 Sec. 15 Twp 6 Rge 22 W

County Graham

When do you plan to start drilling out plugs? 9-10-82 Morning

If no one from the state is on location. (If you would) Keep track of when you hit and run out of each plug. Take one sample of cement from each plug and put the sample in a bag, label it and record top and bottom depth of each plug.

A plugging Supervisor will contact you.

RECEIVED
STATE CORPORATION COMMISSION
SEP 15 1982
CONSERVATION DIVISION
Wichita, Kansas

1st plug @	<u>15'</u>	ft. to	<u>40'</u>	ft.
2nd plug @	<u>190'</u>	ft. to	<u>290'</u>	ft.
3rd plug @	<u>860</u>	ft. to	<u>Pushed plug out</u>	ft.
4th plug @		ft. to		ft.

DATE: 9-10-82

Drilling Superintendent's name Thomas Ragdale Pasher Rig 2

Remarks: Hit 3rd plug at app 860 real heavy mud and cement pushed plug ahead of bit after drilling a couple feet into it. Second plug probably pushed down hole some before we drilled out of it.
