Date: 9-17-82

When Mr. King acquired this lease, this well was already on it. We have no log for well #1.

The tubing has already been removed. The casing is collapsed 1105' down the hole. We have tried to get by it with tools, but can not. We feel that when we cement it, the cement will go around the casing and go to the bottom.

If you have any questions, please call 913-483-5350. This is Elmer Froelich's number.
