AFFI	DAVIT
The undersigned hereby affirms that the drilling, completion and eventual pl	ugging of this well will comply with K.S.A. 55 et. seq.
It is agreed that the following minimum requirements will be met:	
Notify the appropriate district office <i>prior</i> to spudding of well;	
2. A copy of the approved notice of intent to drill shall be posted on each	h drilling rig;
3. The minimum amount of surface pipe as specified below shall be se	
through all unconsolidated materials plus a minimum of 20 feet into the	t by choculating cement to the top, in all cases surface pipe sitali be set
	e underlying formation.
4. If the well is dry hole, an agreement between the operator and the d	e underlying formation. istrict office on plug length and placement is necessary prior to plugging;
 If the well is dry hole, an agreement between the operator and the d The appropriate district office will be notified before well is either plug 	e underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in;
 If the well is dry hole, an agreement between the operator and the d The appropriate district office will be notified before well is either plug If an ALTERNATE II COMPLETION, production pipe shall be cement 	e underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; and from below any usable water to surface within 120 days of spud date.
 If the well is dry hole, an agreement between the operator and the d The appropriate district office will be notified before well is either plug If an ALTERNATE II COMPLETION, production pipe shall be cement Or pursuant to Appendix "B" - Eastern Kansas surface casing order 	e underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; and from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing.
 If the well is dry hole, an agreement between the operator and the d The appropriate district office will be notified before well is either plug If an ALTERNATE II COMPLETION, production pipe shall be cement Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall be 	the underlying formation. It is is is is is increased by the same and placement is necessary prior to plugging; ged or production casing is cemented in; and from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing.
 If the well is dry hole, an agreement between the operator and the d The appropriate district office will be notified before well is either plug If an ALTERNATE II COMPLETION, production pipe shall be cement. Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall the length of the best of the certify that the statements made herein are true and to the best of the length of the best of the length of t	the underlying formation. Instrict office on plug length and placement is necessary prior to plugging; is ged or production casing is cemented in; and from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing. The plugged of the plug
 If the well is dry hole, an agreement between the operator and the d The appropriate district office will be notified before well is either plug If an ALTERNATE II COMPLETION, production pipe shall be cement Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall be 	the underlying formation. Instrict office on plug length and placement is necessary prior to plugging; is ged or production casing is cemented in; and from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing. The plugged of the plug
 If the well is dry hole, an agreement between the operator and the d The appropriate district office will be notified before well is either plug If an ALTERNATE II COMPLETION, production pipe shall be cement. Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall the length of the best of the certify that the statements made herein are true and to the best of the length of the best of the length of t	the underlying formation. Instrict office on plug length and placement is necessary prior to plugging; is ged or production casing is cemented in; and from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing. The plugged of the plug
 If the well is dry hole, an agreement between the operator and the d The appropriate district office will be notified before well is either plug If an ALTERNATE II COMPLETION, production pipe shall be cement. Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall the length of the best of the certify that the statements made herein are true and to the best of the length of the best of the length of t	the underlying formation. Instrict office on plug length and placement is necessary prior to plugging; Instrict office on plug length and placement is necessary prior to plugging; Instruction casing is cemented in; Instruction deliver and usable water to surface within 120 days of spud date. In all cases, NOTIFY district office prior to any cementing. In the plugged in all cases, NOTIFY district office prior to any cementing. In the plugged in the plug
4. If the well is dry hole, an agreement between the operator and the d 5. The appropriate district office will be notified before well is either plug 6. If an ALTERNATE II COMPLETION, production pipe shall be cement Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall it I hereby certify that the statements made herein are true and to the best of Date: 8/16/05 Signature of Operator or Agent For KCC Use ONLY	the underlying formation. Instrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; and from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing to plugged. In all cases, NOTIFY district office prior to any cementing. my knowledge and belief. #131,891-C Agent **Remember to: File Drill Pit Application (form CDP-1) with Intent to Drill; **File Completion Form ACO-1 within 120 days of spud date.

IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

Plat of acreage attributable to a well in a prorated or spaced field

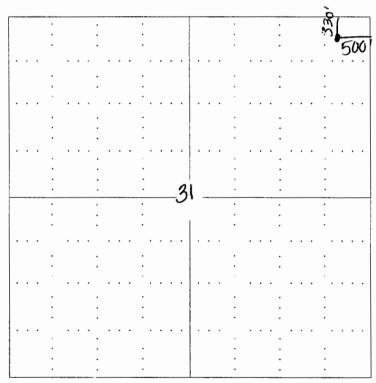

If the Intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

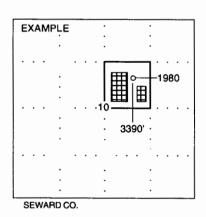

APINO. 15-205-26161-0000	Location of Well: County: Wilson
Operator: Blue Jay Operating, LLC	330' feet from N / S Line of Section
Lease: Sierman	500' feet from F E / W Line of Section
Well Number: A-1	Sec. 31 Twp. 28S S. R. 14E VEast West
Field: Cherokee Basin Coal Gas	
Number of Acres attributable to well: 80 acres	Is Section: ✓ Regular or Irregular
QTR / QTR / QTR of acreage: NE4 - NE4 - NE4	If Section is Irregular, locate well from nearest corner boundary.
	Section corner used: NE NW SE SW

PLAT

(Show location of the well and shade attributable acreage for prorated or spaced wells.)

(Show footage to the nearest lease or unit boundary line.)

NOTE: In all cases locate the spot of the proposed drilling locaton.

In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the section's south / north and east / west.
- 3. The distance to the nearest lease or unit boundary line.
- If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
