RECEIVED

December 2002

NOTICE OF INTENT TO DRILL

AUG 1 9 2005 Form must be Typed Form must be Signed All blanks must be Filled

Expected Spud Dete August 23 2005	(5) days prior to commencing well C WICHITA
	
month day year	Spot Spot
5722 V	
OPERATOR: License# 5723	4070 feet from E / XXW Line of Section
Name: John M. Denman Oil Co.	Is SECTION X RegularIrregular?
Address: P.O. Box 36 City/State/Zin: Sedan, KS 67361	is SECTIONNegularmegular?
Icha Cimpon	(Note: Locate well on the Section Plat on reverse side)
620-725-3727 / 620-249-4735	County: Chautauqua
Phone: 020-723-3727 7 020-247 4733	Lease Name: McCall Well #: 9
CONTRICTOR: Harris Acres	Field Name: Peru-Sedan
Name:	Is this a Prorated / Spaced Field? Target Information(s): Peru
LICENSED LAND	Target Information(s): Peru Nearest Lease or unit boundary: 1210'
Well Drilled For: Well Class: Type Equipment	Ground Surface Elevation:
XXOI Enh Rec X Infield XX Mud Rotary	Water well within one-quarter mile: Yes X N
Gas Storage Pool Ext. Air Rotary	Public water supply well within one mile:
OWWO Disposal Wildcat Cable	Depth to bottom of fresh water: 65'
Selsmic;# of Holes Other	Depth to bottom of usable water: 300 420
Other	Surface Pipe by Alternate: 1 X 2
	Length of Surface Pipe Planned to be set: 40
If OWWO: old well information as follows:	Length of Conductor Pipe required:none
Operator:	Projected Total Depth: 1500 '
Well Name:	Formation at Total Depth: Peru Sand
Original Completion Date: Original Total Depth:	Water Source for Drilling Operations:
Directional, Deviated or Horizontal wellbore?	Well X Farm Pond Other
If Yes, true vertical depth:	DWR Permit #:
Bottom Hole Location:	(Note: Apply for Permit with DWR)
KCC DKT #:	Will Cores be taken?
	If Yes, proposed zone: Peru Sand
AFF	IDAVIT
The undersigned hereby affirms that the drilling, completion and eventual p	ugging of this well will comply with K.S.A. 55 et. seq.
It is agreed that the following minimum requirements will be met:	
Notify the appropriate district office prior to spudding of well;	
A copy of the approved notice of intent to dell about he next de-	ch drilling rig;
2 A copy of the approved notice of intent to drill shall be posted on ea	
3. The minimum amount of surface pipe as specified below shall be se	et by circulating cement to the top; in all cases surface pipe shall be set
3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the	he underlying formation.
3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the deligible of the well is dry hole, an agreement between the operator and the c	he underlying formation. listrict office on plug length and placement is necessary <i>prior to plugging</i> ;
3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the difference of the well is dry hole, an agreement between the operator and the construction of the difference well is either plus to the difference well in the difference well as the difference well in the difference wel	he underlying formation. listrict office on plug length and placement is necessary <i>prior to plugging</i> ;
3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the constitution of the set of the appropriate district office will be notified before well is either plug to the set of	he underlying formation. listrict office on plug length and placement is necessary <i>prior to plugging;</i> iged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate it cementin
3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the constitution of the second structure of the second structu	he underlying formation. listrict office on plug length and placement is necessary <i>prior to plugging;</i> iged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate it cementin
3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the AC if the well is dry hole, an agreement between the operator and the constant of the appropriate district office will be notified before well is either plug 6. If an ALTERNATE!! COMPLETION, production pipe shall be cement Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall	the underlying formation. Illistrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; and from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate if cementing be plugged. In all cases, NOTIFY district office prior to any cementing.
3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the constant of the set of the appropriate district office will be notified before well is either plug 6. If an ALTERNATE!! COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall I hereby certify that the statements made herein are true and to the best of	the underlying formation. Ilistrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate it cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief.
3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the constant of the set of the appropriate district office will be notified before well is either plug at it an ALTERNATE!! COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall it hereby certify that the statements made herein are true and to the best of the set of the s	the underlying formation. Illistrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; and from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate if cementing be plugged. In all cases, NOTIFY district office prior to any cementing.
3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the constant of the set of the appropriate district office will be notified before well is either plug 6. If an ALTERNATE!! COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall I hereby certify that the statements made herein are true and to the best of	the underlying formation. Illistrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate if cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. Title: Manager
3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the construction of the set of the appropriate district office will be notified before well is either plug 6. If an ALTERNATE!! COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall inhereby certify that the statements made herein are true and to the best of the set of th	the underlying formation. Illistrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; all from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate it cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. Title: Manager Remember to:
3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the construction of the specified before well is either plug of the appropriate district office will be notified before well is either plug of the appropriate district office will be notified before well is either plug of the specified will be cement. Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall inhereby certify that the statements made herein are true and to the best of the specified within 30 days of the spud date or the well shall inhereby certify that the statements made herein are true and to the best of the specified before the specified before the specified before the specified before well is either plug of the specified before well i	the underlying formation. Illistrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate if cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. Title: Manager
3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the construction of the specified before well is either plug of the appropriate district office will be notified before well is either plug of the specified before we	the underlying formation. Illistrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate if cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. Title: Manager Remember to: - File Drill Pit Application (form CDP-1) with Intent to Drill;
3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the seed of the well is dry hole, an agreement between the operator and the construction of the second	he underlying formation. listrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate il cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. Title: Manager Remember to: - File Drill Pit Application (form CDP-1) with Intent to Drill; - File Completion Form ACO-1 within 120 days of spud date; - File acreage attribution plat according to field proration orders; - Notify appropriate district office 48 hours prior to workover or re-entry;
3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the construction of the specified before well is either plug 6. If an ALTERNATE!! COMPLETION, production pipe shall be cement. Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall in hereby certify that the statements made herein are true and to the best of the spud shall be completed. Date: 8-18-05	he underlying formation. listrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate it cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. Title: Manager Remember to: File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date; File acreage attribution plat according to field proration orders; Notify appropriate district office 48 hours prior to workover or re-entry; Submit plugging report (CP-4) after plugging is completed;
3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the construction of the set of the appropriate district office will be notified before well is either plug of the appropriate district office will be notified before well is either plug of the set of	he underlying formation. listrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate if cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date; File acreage attribution plat according to field proration orders; Notify appropriate district office 48 hours prior to workover or re-entry; Submit plugging report (CP-4) after plugging is completed; Obtain written approval before disposing or injecting salt water.
3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the construction of the set of the appropriate district office will be notified before well is either plug 8. If an ALTERNATE!! COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall. I hereby certify that the statements made herein are true and to the best of the set of t	he underlying formation. listrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate it cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date; File acreage attribution plat according to field proration orders; Notify appropriate district office 48 hours prior to workover or re-entry; Submit plugging report (CP-4) after plugging is completed; Obtain written approval before disposing or injecting salt water. If this permit has expired (See: authorized expiration date) please
3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the construction of the specified before well is either plug 8. If an ALTERNATE I! COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall hereby certify that the statements made herein are true and to the best of the spud shall be completed. Signature of Operator or Agent: For KCC Use ONLY API # 15 - OI 9 - 266 97 - 000 Conductor pipe required	he underlying formation. listrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate if cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. Title: Manager Remember to: - File Drill Pit Application (form CDP-1) with Intent to Drill; - File Completion Form ACO-1 within 120 days of spud date; - File acreage attribution plat according to field proration orders; - Notify appropriate district office 48 hours prior to workover or re-entry; - Submit plugging report (CP-4) after plugging is completed; - Obtain written approval before disposing or Injecting salt water.
3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the construction of the specified before well is either plug in the second of the specified before well is either plug in	he underlying formation. listrict office on plug length and placement is necessary prior to plugging; aged or production casing is cemented in; led from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate it cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief.
