The undersigned hereby affirms	that the drilling, completion and	eventual plugging of this well will comply with K.S.A. 55-101,	
et. seq.	, ,	The state of the s	
	g minimum requirements will be met		
1. The appropriate distri	ct office shall be notified before	setting surface pipe;	
2. The minimum amount of s	surface pipe as specified above shal	l be set by circulating cement to the top; in all cases surface	
pipe snall be set thro	pipe shall be set through all unconsolidated materials plus a minimum of 20 feet into the underlying formation;		
 If the well is dry, a plugging proposal shall be submitted to the district office. An agreement between the operator and the district office on plug length and placement is necessary prior to plugging; 			
and the district offic	e on plug length and placement is	recessary prior to plugging.	
and the district offic	e on plug length and placement is a	necessary prior to plugging;	
and the district offic 4. The appropriate distri 5. If an Alternate II comp	e on plug length and placement is a ct office will be notified before a pletion, production pipe shall be co	necessary prior to plugging; well is either plugged or production casing is cemented in; emented from below any usable water to surface within 120 days	
and the district offic 4. The appropriate distri 5. If an Alternate II comp of spud date. In all	e on plug length and placement is a ct office will be notified before a pletion, production pipe shall be ca cases, notify district office prior	necessary prior to plugging; well is either plugged or production casing is cemented in; emented from below any usable water to surface within 120 days r to any cementing.	
and the district offic 4. The appropriate distri 5. If an Alternate II comp of spud date. In all	e on plug length and placement is a ct office will be notified before a pletion, production pipe shall be ca cases, notify district office prior	necessary prior to plugging; well is either plugged or production casing is cemented in; emented from below any usable water to surface within 120 days	
and the district offic 4. The appropriate distri 5. If an Alternate II come of spud date. In all I hereby certify that the stat	e on plug length and placement is a ct office will be notified before a pletion, production pipe shall be co cases, notify district office prior ements made herein are true and to	mecessary prior to plugging; well is either plugged or production casing is cemented in; emented from below any usable water to surface within 120 days r to any cementing. the best of my knowledge and belief.	
and the district offic 4. The appropriate distri 5. If an Alternate II comp of spud date. In all	e on plug length and placement is a ct office will be notified before a pletion, production pipe shall be co cases, notify district office prior ements made herein are true and to	necessary prior to plugging; well is either plugged or production casing is cemented in; emented from below any usable water to surface within 120 days r to any cementing.	
and the district offic 4. The appropriate distri 5. If an Alternate II compof spud date. In all I hereby certify that the stat	ct office will be notified before a ct office will be notified before a pletion, production pipe shall be co cases, notify district office prior ements made herein are true and to ature of Operator or Agent	mecessary prior to plugging; well is either plugged or production casing is cemented in; emented from below any usable water to surface within 120 days r to any cementing. the best of my knowledge and belief.
