Describe in detail the manner in which the well is plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same depth placed from (bottom), to (top) for each plug set.

Bullhead pump 20 sacks portland cement and 40 barrels gelled water. Pressured up to 800# & shut in. Nexy day run in 1" spool to 350' and pumped/circulated cement to surface with 35 sacks portland cement. Pulled 1" spool hose from well and top well off with cement. Restore location.
