Mr. Leslie Griffin
Natoma, Kansas

Dear Sir:

We are making an effort to complete our file on a well that was completed as a dry hole, located on your farm, in the NE/4 of section 25-8-16W, Rooks County, Kansas. We have our agent's report who supervised the plugging of this well showing that the plugging was completed March 28, 1944.

According to the rules and regulations we need certain plugging forms which are to be filed and a plugging fee of \$25.00 which is to be paid before we can complete this file.

I understand that the well was originally operated by the company known as the Wes Kan Drilling Company but have been advised that you took over the operation of this well during the latter stages of the drilling.

We would appreciate any information that you could furnish us that will help us to complete our file and if you are responsible for the furnishing of these plugging forms this office will cooperate with you in every respect in helping you to fill out and complete the required plugging instruments.

We will appreciate your early reply with reference to this matter.

Very truly yours,

STATE CORPORATION COMMISSION
CONSERVATION DIVISION
