KANSAS CORPORATION COMMISSION OIL & GAS CONSERVATION DIVISION

NOTICE OF INTENT TO DRILL

Form C-1

December 2002

Form must be Typed

Form must be Signed

All blanks must be Filled

Must be approved by KCC five (5) days prior to commencing well

monjifi day year	Spot Fast SW SW SE Sec. 20 Twp. 34 S. R. 03 West
20070	330 feet from N / S Line of Section
OPERATOR: License# 32679	
Name: AAS OIL CO., INC.	leet from [V] E / [] W Line of Section
Address: 2508 EDGEMONT DR. STE.4	Is SECTIONRegularIrregular?
Address:ARKANSAS CITY, KS. 67005-3844	(Note: Locate well on the Section Plat on reverse side)
Contact Person. Dennis Shurtz	County: Cowley
Phone: 620-442-7940	Lease Name: Grainland Farms 'B' Well #: 1
	Field Name: Gibson
CONTRACTOR: License# 31539 ✓	Is this a Prorated / Spaced Field?
Name: Sam's Well Service	Target Formation(s): Mississippian
	Nearest Lease or unit boundary: 330'
Well Drilled For: Well Class: Type Equipment:	Ground Surface Elevation: 1131feet MSL
✓ Oil Enh Rec ✓ Infield Mud Rotary	
✓ Gas Storage Pool Ext. Air Rotary	
OWWO Disposal Wildcat Cable	Public water supply well within one mile: Yes ✓ No
Seismic;# of Holes Other	Depth to bottom of fresh water: 150
Other	Depth to bottom of usable water: 280
	Surface Pipe by Alternate: 1 2
If OWWO: old well information as follows:	Length of Surface Pipe State Set: 8" @123'
Operator: Goldenstern & Stopler	Length of Conductor Pipe required: none
Well Name: #1 Shurtz	Projected Total Depth: aprox.3430'
Original Completion Date: 04-25-52 Original Total Depth: 3373	Formation at Total Depth: Mississippian
	Water Source for Drilling Operations:
Directional, Deviated or Horizontal wellbore?	Well ✓ Farm Pond Other
If Yes, true vertical depth:	DWB Permit #:
Bottom Hole Location:	(Note: Apply for Permit with DWR
KCC DKT #:	Will Cores be taken? Yes ✓ No
	If Yes, proposed zone:
TBL. 1 Exception Granted!	ii ita, pioposad zaita.
	DAVIT DECEIVED
AFFI The undersigned hereby affirms that the drilling, completion and eventual pl It is acceed that the following minimum requirements will be met:	ugging of this well will comply with K.S.A. 55 et. seq.
It is agreed that the following minimum requirements will be met:	MAD 4.0.000
	MAR 1 6 2006
 Notify the appropriate district office prior to spudding of well; A copy of the approved notice of intent to drill shall be posted on ear 	ch drilling rig:
A server of the server of action of intent to alith about the acceptance of	th drilling rig;
 A copy of the approved notice of intent to drill shall be posted on each The minimum amount of surface pipe as specified below shall be se 	t by circulating cement to the top; in all cases surface opperant be set
 A copy of the approved notice of intent to drill shall be posted on eac The minimum amount of surface pipe as specified below shall be se through all unconsolidated materials plus a minimum of 20 feet into the 	t by circulating cement to the top; in all cases surface by the state of the set
 A copy of the approved notice of intent to drill shall be posted on eac The minimum amount of surface pipe as specified below shall be se through all unconsolidated materials plus a minimum of 20 feet into the 	t by circulating cement to the top; in all cases surface by the set the underlying formation. istrict office on plug length and placement is necessary prior to plugging;
 A copy of the approved notice of intent to drill shall be posted on each 3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the district office will be notified before well is either plug 6. If an ALTERNATE II COMPLETION, production pipe shall be cement 	t by circulating cement to the top; in all cases surface of the set the underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date.
 A copy of the approved notice of intent to drill shall be posted on each 3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the description of 5. The appropriate district office will be notified before well is either plug 6. If an ALTERNATE IJ COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order 	t by circulating cement to the top; in all cases surface opportunities to the underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing
 A copy of the approved notice of intent to drill shall be posted on each 3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the description of 5. The appropriate district office will be notified before well is either plug 6. If an ALTERNATE IJ COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order 	t by circulating cement to the top; in all cases surface of the set the underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date.
 A copy of the approved notice of intent to drill shall be posted on each 3. The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the description of 5. The appropriate district office will be notified before well is either plug 6. If an ALTERNATE IJ COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order 	It by circulating cement to the top; in all cases surface of the set to underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing.
 A copy of the approved notice of intent to drill shall be posted on ead The minimum amount of surface pipe as specified below shall be se through all unconsolidated materials plus a minimum of 20 feet into the second of the seco	It by circulating cement to the top; in all cases surface of the set to underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing.
 A copy of the approved notice of intent to drill shall be posted on ead The minimum amount of surface pipe as specified below shall be se through all unconsolidated materials plus a minimum of 20 feet into the lift the well is dry hole, an agreement between the operator and the description of the spropriate district office will be notified before well is either plug. If an ALTERNATE II COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall it. 	It by circulating cement to the top; in all cases surface of the set to underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing.
 A copy of the approved notice of intent to drill shall be posted on ead The minimum amount of surface pipe as specified below shall be se through all unconsolidated materials plus a minimum of 20 feet into the second of the seco	t by circulating cement to the top; in all cases surface opternal be set the underlying formation. istrict office on plug length and placement is necessary prior to pluggling; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing.
 A copy of the approved notice of intent to drill shall be posted on ead The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the lifeth through all unconsolidated materials plus a minimum of 20 feet into the lifeth through all unconsolidated materials plus a minimum of 20 feet into the lifeth through the lifeth through the specified before well is either plug. If an ALTERNATE II COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall thereby certify that the statements made herein are true and to the best of the lifeth through through the lifeth through the lifeth through the lifeth through through thro	the by circulating cement to the top; in all cases surface operations the underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing. Title: Title:
 A copy of the approved notice of intent to drill shall be posted on ead 3. The minimum amount of surface pipe as specified below shall be sethrough all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the description of 5. The appropriate district office will be notified before well is either plug 6. If an ALTERNATE IJ COMPLETION, production pipe shall be cement Or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall to the hereby certify that the statements made herein are true and to the best of the place of the spud date or the well shall to the statements made herein are true and to the best of the place of the spud date or the well shall to the statements made herein are true and to the best of the spud date or the well shall to the statements made herein are true and to the best of the spud date or the well shall the statements made herein are true and to the best of the spud date or the well shall the statements made herein are true and to the best of the spud date or the well shall the statements made herein are true and to the best of the spud date or the well shall the statements made herein are true and to the best of the spud date or the well shall the statements made herein are true and to the best of the spud date or the well shall the statements made herein are true and to the best of the spud date or the well shall the statements made herein are true and to the best of the spud date or the well shall the statements are true and to the best of the spud date or the well shall the statements are true and to the spud date or the well shall the statements are true and the statement are true and th	t by circulating cement to the top; in all cases surface opternal be set the underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing. If my knowledge and belief. Remember to: - File Drill Pit Application (form CDP-1) with Intent to Drill;
 A copy of the approved notice of intent to drill shall be posted on ead The minimum amount of surface pipe as specified below shall be see through all unconsolidated materials plus a minimum of 20 feet into the lifeth through all unconsolidated materials plus a minimum of 20 feet into the lifeth through all unconsolidated materials plus a minimum of 20 feet into the lifeth through the lifeth through the specified before well is either plug. If an ALTERNATE II COMPLETION, production pipe shall be cement or pursuant to Appendix "B" - Eastern Kansas surface casing order must be completed within 30 days of the spud date or the well shall thereby certify that the statements made herein are true and to the best of the lifeth through through the lifeth through the lifeth through the lifeth through through thro	t by circulating cement to the top; in all cases surface opternal be set the underlying formation. istrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; ed from below any usable water to surface within 120 days of spud date. #133,891-C, which applies to the KCC District 3 area, alternate II cementing be plugged. In all cases, NOTIFY district office prior to any cementing. IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

Plat of acreage attributable to a well in a prorated or spaced field

If the Intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

API No. 15	Location of Well: County: Cowley
Operator: AAS OIL CO., INC.	feet from N / V S Line of Section
Lease: Grainland Farms 'B'	2310 feet from
Well Number: 1	Sec. 20 Twp. 34 S. R. 03 ✓ East West
Field: Gibson	
Number of Acres attributable to well: OTR / OTR / OTR of acresco: SW SW SE	Is Section: 📝 Regular or 🗌 Irregular
QTR / QTR / QTR of acreage: SW - SW - SE	If Section is Irregular, locate well from nearest corner boundary.
	Section comer used: NE NW SE SW

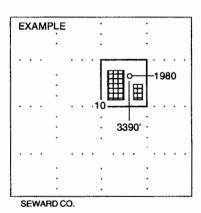

PLAT

(Show location of the well and shade attributable acreage for prorated or spaced wells.)

(Show footage to the nearest lease or unit boundary line.)

KCC WICHITA

NOTE: in all cases locate the spot of the proposed drilling locaton.

In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the section's south / north and east / west.
- 3. The distance to the nearest lease or unit boundary line.

Į,

4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).

Mr. Dennis K. Shurtz AAS Oil Company 2508 Edgemont Dr. STE. 4 Arkansas City, KS 67005-3844

RE: Exception to Table 1 Minimum Surface Casing Requirements for the Grainland Farms B #1 "OWWO", 2310' FEL & 330' FSL, SW SW SE Sec. 20 T. 34S R. 3E, Cowley County.

Dear Mr. Shurtz,

The Kansas Corporation Commission (KCC) has received your request, dated March 22, 2006, for an exception to Table 1 surface pipe requirements for the above-referenced well, which was drilled and plugged as the Shurtz #1 in 1952 by Goldstein & Stopler. From your request, the KCC understands that AAS Oil Company desires to re-enter this well, which has 123' of surface pipe set. The Table 1, Alternate-1 completion minimum surface pipe requirement surface pipe setting depth for wells drilled in Range 3 East in Cowley County is 300'. The surface pipe set in this previously plugged well does not meet the present surface pipe setting depth requirements.

After review of this matter by technical staff this exception is granted for the Table 1, Minimum Surface Casing Requirements with the following stipulations:

- 1. The production or long string casing nearest the formation wall shall be cemented from 300' with the cement circulated back to the surface.
- 2. In the event the well is dry and no production pipe has been cemented in-place, plugging will be performed according to KCC rules per KCC District #2 requirements.

Very Sincerely Yours,

M. L. Korphage

Director
