AFFIDAVII	
The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55 et. seq.	
It is agreed that the following minimum requirements will be met:	
 Notify the appropriate district office prior to spudding of well; 	
2. A copy of the approved notice of intent to drill shall be posted on each drilling rig;	
3. The minimum amount of surface pipe as specified below shall be set by circulating cement to the top; in all cases surface pipe shall be state of the surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be state of the surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the top; in all cases surface pipe shall be set by circulating cement to the circulatin	et
through all unconsolidated materials plus a minimum of 20 feet into the underlying formation. 4. If the well is dry hole, an agreement between the operator and the district office on plug length and placement is necessary prior to plug	aina:
5. The appropriate district office will be notified before well is either plugged or production casing is cemented in;	gg,
6. If an ALTERNATE II COMPLETION, production pipe shall be cemented from below any usable water to surface within 120 days of spud of	ate.
Or pursuant to Appendix "B" - Eastern Kansas surface casing order #133,891-C, which applies to the KCC District 3 area, alternate II ce	nenting
must be completed within 30 days of the spud date or the well shall be plugged. In all cases, NOTIFY district office prior to any cement	ng.
I hereby certify that the statements made herein are true and to the best of my knowledge and belief.	
Puzzidant/000	
Date: 4/21/06 Signature of Operator or Agent: Title: President/COO	
For KCC Use ONLY - File Drilli Pit Application (form CDP-1) with Intent to Drill;	
	≈
API # 15	~
Conductor pipe required feet - Notify appropriate district office 48 hours prior to workover or re-ent	y;
Minimum surface pipe required 200 feet per Alt. (2) - Submit plugging report (CP-4) after plugging is completed;	
Approved by: Pobl 4-25-06/Rut 5-3-06 Obtain written approval before disposing or injecting salt water.	8
If this permit has expired (See, authorized expiration data) planes	
check the box below and return to the address below.	
(This authorization void if drilling not started within 6 months of approval date.) Well Not Drilled - Permit Expired	FIL
