Describe in detail the manner in which the well is plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same depth placed from (bottom), to (top) for each plug set.

Sand back perforations. 2" tubing was run into the 5 1/2" casing to TD. Cement was pumped into the 2" tubing until cement circulated from the casing at surface. The tubing was removed. Displacement was filled from surface.
