State of Kansas

CARD MUST BE SIGNED

NOTICE OF INTENTION TO DRILL

(see rules on reverse side)

Starting Date May 20 1988
month day yearOPERATOR: License # 03390
Name KenLeCo Oil & Gas Corp.
Address Route 1
City/State/Zip Garnett, Ks 66032
Contact Person H. H. Lemon
Phone 913/898-6218CONTRACTOR: License #
Name Unknown
City/State Well Drilled For: Well Class: Type Equipment:
☒ Oil ☐ SWD ☒ Infield ☒ Mud Rotary
☐ Gas ☐ Inj ☐ Pool Ext. ☐ Air Rotary
☐ OWWO ☐ Expl ☐ Wildcat ☐ Cable

If OWWO: old well info as follows:

Operator
Well Name
Comp Date Old Total Depth

I certify that well will comply with K.S.A. 55-101, et seq., plus eventually plugging hole to KCC specifications.

Date 5/13/88 Signature of Operator or Agent J. H. Lemon Title VP

For KCC Use:

Conductor Pipe Required feet; Minimum Surface Pipe Required feet per Alt. 20
This Authorization Expires 11-16-88 Approved By J. H. 5-16-88

EFFECTIVE DATE: 5-21-88

API Number 15-003-22 904-00-00
SE SE NE Sec. 14 Twp. 21 S, Rg. 20
2805
85
Ft. from South Line of Section
Ft. from East Line of Section

(Note: Locate well on Section Plat on reverse side)

Nearest lease or unit boundary line 165 feet
County Anderson
Lease Name VanWinkle Well # 88-7
Ground surface elevation NA feet MSL
Domestic well within 330 feet: ☐ yes ☒ no
Municipal well within one mile: ☐ yes ☒ no
Depth to bottom of fresh water. NA
Depth to bottom of usable water 100 125
Surface pipe by Alternate: 20' 1 2 ☒
Surface pipe planned to be set
Conductor pipe required none
Projected Total Depth 800' feet
Formation Squirell

6. A number of people are called "polytechnic" because they have studied in a technical school or college. This is a common mistake. The word "polytechnic" comes from the Greek words "poly" meaning many and "technic" meaning art or craft. It refers to a type of education that combines theoretical knowledge with practical skills in various fields such as engineering, architecture, design, etc.

7. The term "polytechnic" is often used interchangeably with "technical school" or "vocational school". However, there are subtle differences between them. While all three institutions aim to provide students with both academic and vocational training, polytechnics typically offer a broader range of subjects and programs compared to technical schools. Additionally, polytechnics may have more extensive facilities and resources available to their students.

8. One of the main advantages of attending a polytechnic is the opportunity to gain hands-on experience through internships and practical projects. This allows students to apply what they learn in the classroom to real-world situations, which can greatly enhance their understanding and proficiency in their chosen field. Furthermore, many polytechnics have strong ties with industry partners, providing students with valuable networking opportunities and potential job prospects upon graduation.

9. Another benefit of studying at a polytechnic is the emphasis on developing soft skills alongside technical expertise. Communication, teamwork, problem-solving, and time management are essential skills in today's workforce, and polytechnics often incorporate these into their curriculum. By focusing on both hard and soft skills, graduates from polytechnics are better equipped to succeed in a competitive job market.

10. Finally, it's worth noting that attending a polytechnic can be a cost-effective option for many students. Polytechnics generally charge lower tuition fees than universities, making them accessible to a wider range of socioeconomic backgrounds. Moreover, the shorter duration of most polytechnic programs (usually two to three years) can help reduce the overall financial burden of higher education.
