For KCC Use	9:	
Effective Da	te: 5-17-04	
District # _	4	
SGA?	Yes X No	

Kansas Corporation Commission Oil & Gas Conservation Divisinguest Received_ Permit Extension

Form C-1 September 1999

NOTICE OF INTENT TO DRILL

Must be approved by KCC five (5) days prior to commencing well

Form must be Typed Form must be Signed All blanks must be Filled

Expected Spud DateJune 1 2006	
month day year	Spot East
, , , , , , , , , , , , , , , , , , , ,	SW NW Sec. 9 Twp. 3 S. R. 42 West
OPERATOR: License# 33019	1225feet from S / N circle one) Line of Section
Name: Rosewood Resources, Inc. 2711 N. Haskell Ave Suite 2800, LB #22	teet from E / W /(circle one) Line of Section
Dallas Tayas 75204	Is SECTION Regular Irregular?
City/State/Zip;	(Note: Locate well on the Section Plat on reverse side)
244 75C CC2C	County: Cheyenne
Phone: 214-730-0020	Lease Name: Vandike
CONTRACTOR: License# 33532	
Name Advanced Drilling Technologies LLC	1s this a Prorated / Spaced Field? Target Formation(s): Niobrara
	Nearest Lease or unit boundary: 658'
Well Drilled For: Well Class: Type Equipment:	Ground Surface Elevation: 3733feet MSL
Oil Enh Rec / Infield / Mud Rotary	Water well within one-quarter mile: Yes ✓ No
✓ Gas Storage Pool Ext. Air Rotary	Public water supply well within one mile:
Cable Seismic; # of Holes Other	Depth to bottom of fresh water: 300
Seismic; # of Holes Other	Depth to bottom of usable water: New 300
Out of	Surface Pipe by Alternate: XXX 1 2
if OWWO: old well information as follows:	Length of Surface Pipe Planned to be set: 350 Minimum
Operator:	Length of Conductor Pipe required: None
Well Name:	Projected Total Depth: 1800 Niobrara
Original Completion Date:Original Total Depth:	1 of matter at load begat
Directional, Deviated or Horizontal wellbore? Yes ✓ No	Water Source for Drilling Operations: Well Farm Pond Other XXX
If Yes, true vertical depth:	DWR Permit #:
Bottom Hole Location:	(Note: Apply for Permit with DWR)
KCC DKT #:	Will Cores be taken? Yes ✓ No
	If Yes, proposed zone:
	15. AL /15.
AFF	IDAVIT
The undersigned hereby affirms that the drilling, completion and eventual p	lugging of this well will comply with K.S.A. 55-101, et. seq.
It is agreed that the following minimum requirements will be met:	
A RECORD OF THE PROPERTY OF TH	
 Notify the appropriate district office prior to spudding of well; 	
2. A copy of the approved notice of intent to drill shall be posted on ea	
2. A copy of the approved notice of intent to drill shall be posted on ea	of by circulating cement to the top; in all cases surface pipe shall be set
 A copy of the approved notice of intent to drill shall be posted on ea The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the common state of the set of the set	of by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. In this issues that the set is necessary prior to plugging;
 A copy of the approved notice of intent to drill shall be posted on ea The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the constitution. The appropriate district office will be notified before well is either plus 	of by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Illustrict office on plug length and placement is necessary prior to plugging; upged or production casing is cemented in;
 A copy of the approved notice of intent to drill shall be posted on ea The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the common state. 	of by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Illustrict office on plug length and placement is necessary prior to plugging; upged or production casing is cemented in;
 A copy of the approved notice of intent to drill shall be posted on ea The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the control of the set of t	of by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Ilistrict office on plug length and placement is necessary prior to plugging; upper or production casing is cemented in; upper or production casing is cemented in; upper office of spud in the production casing is cemented in; upper office of spud in the production casing is cemented in; upper office of spud in the production casing is cemented in; upper office of spud in the production case in the production of the production case in the production of the product
 A copy of the approved notice of intent to drill shall be posted on ea The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the constitution of the set of the appropriate district office will be notified before well is either plugible. If an ALTERNATE II COMPLETION, production pipe shall be cement date. In all cases, NOTIFY district office prior to any cementing. I hereby certify that the statements made herein are true and to the best of the set of the s	of by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Illistrict office on plug length and placement is necessary prior to plugging; iged or production casing is cemented in; led from below any usable water to surface within 120 days of spud from kingledge and belief.
 A copy of the approved notice of intent to drill shall be posted on ea The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the well is dry hole, an agreement between the operator and the control of the set of t	of by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Ilistrict office on plug length and placement is necessary prior to plugging; upper or production casing is cemented in; upper or production casing is cemented in; upper office of spud in the production casing is cemented in; upper office of spud in the production casing is cemented in; upper office of spud in the production casing is cemented in; upper office of spud in the production case in the production of the production case in the production of the product
 A copy of the approved notice of intent to drill shall be posted on ea The minimum amount of surface pipe as specified below shall be so through all unconsolidated materials plus a minimum of 20 feet into the second of the secon	of by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Illistrict office on plug length and placement is necessary prior to plugging; iged or production casing is cemented in; led from below any usable water to surface within 120 days of spud from kingledge and belief.
A copy of the approved notice of intent to drill shall be posted on ea. The minimum amount of surface pipe as specified below shall be so through all unconsolidated materials plus a minimum of 20 feet into the second of	of by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Illistrict office on plug length and placement is necessary prior to plugging; iged or production casing is cemented in; led from below any usable water to surface within 120 days of spud from kingledge and belief.
A copy of the approved notice of intent to drill shall be posted on ea. The minimum amount of surface pipe as specified below shall be so through all unconsolidated materials plus a minimum of 20 feet into the second of	of by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Iistrict office on plug length and placement is necessary prior to plugging; iged or production casing is cemented in; ised from below any usable water to surface within 120 days of spud if my knowledge and belief. Title: Land Administrator
2. A copy of the approved notice of intent to drill shall be posted on ea 3. The minimum amount of surface pipe as specified below shall be so through all unconsolidated materials plus a minimum of 20 feet into the second of	the by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. iistrict office on plug length and placement is necessary prior to plugging; iged or production casing is cemented in; ited from below any usable water to surface within 120 days of spud if my knowledge and belief. Title: Land Administrator Remember to: File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date;
2. A copy of the approved notice of intent to drill shall be posted on ea 3. The minimum amount of surface pipe as specified below shall be so through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the construction of the surface of the properties of the properties of the plus of the properties of the prop	the by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. iistrict office on plug length and placement is necessary prior to plugging; iged or production casing is cemented in; and from below any usable water to surface within 120 days of spud if my knowledge and belief. Title: Land Administrator Remember to: File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date; File acreage attribution plat according to field proration orders;
2. A copy of the approved notice of intent to drill shall be posted on ea 3. The minimum amount of surface pipe as specified below shall be so through all unconsolidated materials plus a minimum of 20 feet into the second of the well is dry hole, an agreement between the operator and the control of the second	the by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. iistrict office on plug length and placement is necessary prior to plugging; iged or production casing is cemented in; ited from below any usable water to surface within 120 days of spud if my knowledge and belief. Title: Land Administrator Remember to: File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date;
2. A copy of the approved notice of intent to drill shall be posted on ea 3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the set	the by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. iistrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; led from below any usable water to surface within 120 days of spud of my knowledge and belief. Title: Land Administrator Remember to: File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date; File acreage attribution plat according to field proration orders; Notify appropriate district office 48 hours prior to workover or re-entry; Submit plugging report (CP-4) after plugging is completed:
2. A copy of the approved notice of intent to drill shall be posted on ea 3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the constant of the set of	the by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. iistrict office on plug length and placement is necessary prior to plugging; iged or production casing is cemented in; ited from below any usable water to surface within 120 days of spud if my knowledge and belief. Title: Land Administrator Remember to: File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date; File acreage attribution plat according to field proration orders; Notify appropriate district office 48 hours prior to workover or re-entry; Submit plugging report (CP-4) after plugging is completed:
2. A copy of the approved notice of intent to drill shall be posted on ea 3. The minimum amount of surface pipe as specified below shall be so through all unconsolidated materials plus a minimum of 20 feet into the 4. If the well is dry hole, an agreement between the operator and the construction of the surface of the s	the by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Ilistrict office on plug length and placement is necessary prior to plugging; iged or production casing is cemented in; led from below any usable water to surface within 120 days of spud if my knowledge and belief. Title: Land Administrator Remember to: File Drill Pit Application (form CDP-1) with Intent to Drill; File acreage attribution plat according to filed proration orders; Notify appropriate district office 48 hours prior to workover or re-entry;
2. A copy of the approved notice of intent to drill shall be posted on ea 3. The minimum amount of surface pipe as specified below shall be set through all unconsolidated materials plus a minimum of 20 feet into the set of the set	the by circulating cement to the top; in all cases surface pipe shall be set the underlying formation. Ilistrict office on plug length and placement is necessary prior to plugging; ged or production casing is cemented in; led from below any usable water to surface within 120 days of spud of my knewledge and belief. Title: Land Administrator Remember to: File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date; File acreage attribution plat according to field proration orders; Notify appropriate district office 48 hours prior to workover or re-entry; Submit plugging report (CP-4) after plugging is completed; Obtain written approval before disposing or injection salt water.
