Section 27-10S-15W
Osborne County, Kansas

Dear Mr. Leiker:

Confirming our telephone conversation of this morning, this is to advise that information contained on the state productivity test on the captioned well is in error.

The oil and water production figures are correct: water - 182 barrels, oil - 40 barrels.

The oil and water percentage figures are incorrect. The report should state: water percentage - 82 percentage, oil percentage - 18 percentage.

Yours very truly,

GRAHAM-MICHAELIS CORPORATION
