Attention: Mr. S. S. Greider

Gentlemen:

In replying to your letter dated April 18th, regarding the plugging forms on the above described well, we have checked our files and find that we have only a copy of the well plugging application and well plugging record forms, and we sent the original and several copies to Harry Gore on April 3, 1950. In our letter to Mr. Gore we stated that we were sending him the original and a well log which he in turn would no doubt wish to send to you. We are indeed sorry that you received only carbon copies of this plugging data, and are at a loss to understand why the originals were not available.

We are enclosing herewith another original of the well plugging application form and well plugging record that we typed up from our copy. We thought it best that we type these up and mail them to you direct so that you would not need to use the carbon copies for your permanent records.

Trusting the enclosed data will now make your files on the Steeples well complete and satisfactory, we are,

Yours very truly,

THE VEEDER SUPPLY & DEVELOPMENT COMPANY
