			FIDAVIT g of this well will comply with K.S.A. 55-101,	REC	CEIVED RATION COMMISSION
The undersigned hereby a	affirms that the drilling, co	empletion and eventual plugging	g of this well will comply with K.S.A. 55-101,	, et. Seq. KANSAS CORPO	to the second

Notify the appropriate district office prior to spudding of well;

It is agreed that the following minimum requirements will be met:

A copy of the approved notice of intent to drill shall be posted on each drilling rig; 2

The minimum amount of surface pipe as specified below **shall be set** by circulating cement to the top; in all cases surface pipe **shall be set** through all uncosolidated materials plus a minimum of 20 feet into the underlying formation. 3. uncosolidated materials plus a minimum of 20 feet into the underlying formation. If the well is dry hole, an agreement between the operator and the district office on plug length and placement is necessary prior to pluggliff; HITA KS

4

The appropriate district office will be notified before well is either plugged or production casing is cemented in; if an ALTERNATE II COMPLETION, production pipe shall be cemented from below any usable water to surface within 120 days of spud date. Or pursuant to Appendix "B" - Eastern Kansas surface casing order #133,891-C, which applies to the KCC District 3 area, alternate II cementing must be completed within 30 days of the spud date or the well shall be plugged. *In all cases, NOTIFY district office* prior to any cementing.

## Side Two

## IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

Plat of acreage attributable to a well in a prorated or spaced field

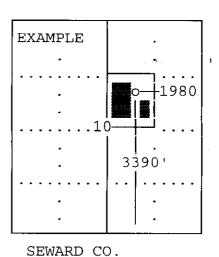

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundries of the proposed acreage attribution unit for gas wells and within ½ mile of the boundries of the proposed acreage attribution unit for oil wells.

Note: In all cases locate the spot of the proposed drilling location.

## In plotting the proposed location of the well, you must show:

- The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- The distance of the proposed drilling location from the sections south / north and east / west.
- The distance to the nearest lease or unit boundary line.
- If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (CO-7 for oil wells; CG-8 for gas wells).
