Dear Sir:

We submitted a CP-1 for the above lease on 02/14/07, which was approved by your letter of 02/27/07. We have scheduled Mike's Testing & Salvage, Inc. to plug this well and have been delayed for obvious weather related conditions to complete this plugging operation. Our last attempt to move on location was yesterday (06/26/07). There was no way we could move in because of wet conditions on the lease.

We are resubmitting our plugging request for your approval. We are mailing a copy of this letter to Mr. Deines in Hays as he has been informed of our inability to complete the plugging of Sellens B-3.

We thank you for your cooperation in this matter. We are again on Kelso's list for plugging the well and will do so as soon as possible.

Very truly yours,

  
Grady Bolding

Dear Operator:

This letter is to notify you that the Conservation Division has received your plugging proposal, form CP-1, for the above well and has reviewed the proposal for completeness. The central office will now forward your CP-1 to the district office listed below for review of the proposed plugging method. **Please contact the district office for approval of your proposed plugging method at least five (5) days before plugging the well, pursuant to K.A.R. 82-3-113(b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit in accordance with K.A.R. 82-3-600.**

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well. This notice in no way constitutes authorization to plug the above well by persons not having legal rights of ownership or interest in the well. **This notice is void after 180 days from its date. The CP-1 filing does not bring the above well into compliance with K.A.R. 82-3-111 with regard to the Commission's temporary abandonment requirements.**
