Formation	Content	From	To	Size	Put In	Pulled Out
		0	20	7	20	0
		0	800	2 7/8	800	0

Describe in detail the manner in which the well is plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same depth placed from (bottom), to (top) for each plug set.

The pump truck was connected directly to the 2 7/8" casing. Cotton seed hulls were mixed with the first of the cement to be plugged. Cement was pumped into the 2 7/8" casing until the well would hold pressure. The well was shut in at 650 psi. 28 sacks of cement were pumped into this well.
