**RE: Notice of Intent to Drill
Hunt #6 & 7, Section 1-T15S-R21E
Johnson County, Kansas**

Dear Operator,

Our records indicate that a domestic water well is located within approximately 490 feet or less of these proposed locations. Eastern Kansas Surface Casing Order #133,891-C for Area 2, paragraph 2 states, **"No well shall be drilled closer than 660 feet of an existing domestic or municipal water well without written owner notification, a copy of which must be attached to the drilling intent form during filing. Special casing and cementing requirements may be imposed in those areas producing fresh and usable water."**

Please resubmit these applications with a copy of the owner notification to further the processing of your notices of intent to drill. The records indicate this water well has a total depth of 178 feet and water level of 10 feet.

Sincerely,
