Gentlemen:

We have your letter dated September 11, 1951, addressed to the Glickman Oil Company, 439 South St. Francis, Wichita, Kansas in which you request written plugging application, well log, and well plugging record covering the Newell Well #1 located in the SE SE SE, Section 21-8S-21W, Graham County, Kansas, which we drilled for them and was recently completed as a dry hole. The forms you asked for in the above letter were mailed to you August 20, 1951.

We don't know what might have happened to these records; however we have the copies in our office which shows these papers were all furnished to you on August 20. However, we do not have your written authority to plug this well and we would appreciate your checking this matter and furnishing us with the written permission.

Very truly yours,

SMITHERMAN & COHEN DRILLING CO.

Graham County, Kansas

Smitherman & Cohen Drilling Company,
P. O. Box 692,
El Dorado, Kansas

Gentlemen:

This will acknowledge receipt of your letter dated September 20, 1951, regarding the plugging forms for the above described well.

Our records reveal that the Newell Well was plugged twice; the first time on August 8, 1951 and then again on August 13, 1951. The operators decided to re-open the well to take a drill stem test.

We have a complete set of plugging forms for the first plugging of the well and we have completed for your signature an application and a well plugging record form to be used for the second set of plugging records. If you will sign and return these forms to us we will then be able to complete our files. We are also mailing to you copies of the permit letters the originals of which were sent to the Glickman Oil Company.

Very truly yours,
