|           |         |      |    |      |                |            |
|           |         |      |    |      |                |            |

Describe in detail the manner in which the well was plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hold. If cement or other plugs were used, state the character of same and depth placed, from \_\_\_\_\_ feet to \_\_\_\_\_ feet for each plug set.

The hole was filled with heavy mud to 240'; set a wood plug at 240' and dumped 15 sacks of cement to within 3' of the top; surface casing was cut off and a steel cap welded on 3' below ground level.
