Re: Eastern Kansas Surface Casing Order

Dear Mr. Miller:

The Eastern Kansas Surface Casing Order #133,891-C for Area 2, paragraph 2 states, "No well shall be drilled closer than 660 feet of an existing domestic or municipal water well without written owner notification, a copy of which must be attached to the drilling intent form during filing. Special casing and cementing requirements may be imposed in those areas producing fresh and usable water."

Based on information supplied by the Kansas Geological Survey, we believe you have a water well within 660 feet of our proposed gas well, D. Miller A4-35., located 4620' FSL, 660' FEL, Sec 35-34S-15E, Montgomery County.

This document shall serve as landowner notification in accordance with the above referenced regulation.

Please feel free to contact me if you have any questions regarding this notice.

Thank you,

Tony Williams
