Generalized map is based upon the best available and photographs available to us and upon a regular section of land containing 360 acres.
 Approximate section lines were determined using the normal standard of care of oilfield surveys conducted in the state of Kansas. The section corners, which establish the precise section lines, were not necessarily located and the exact location of the drillsite location in the section is not guaranteed. Therefore, the company, including this and all other parties relying thereon agree to hold Central Energy Drilling Services, Inc., its officers and employees harmless from all claims, costs and expenses and hold parties released from any liability from incidental or consequential damages.
