ne undersigned hereby affirms that the drilling, completion and ever	
the undersigned hereby affirms that the drilling, completion and ever is agreed that the following minimum requirements will be met:  1. Notify the appropriate district office prior to sounding of well:	
is agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;	ntual plugging of this well will comply with K.S.A. 55 et. seq.
is agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted	ntual plugging of this well will comply with K.S.A. 55 et. seq.  on each drilling rig;
<ol> <li>is agreed that the following minimum requirements will be met:</li> <li>Notify the appropriate district office <i>prlor</i> to spudding of well;</li> <li>A copy of the approved notice of intent to drill <i>shall be</i> posted</li> <li>The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee</li> </ol>	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set at into the underlying formation.
is agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prlor</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and	on each drilling rig;  I be set by circulating coment to the top; in all cases surface pipe shall be set on the top into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging;
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; are plugged or production casing is cemented in;
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be compared to the second of the	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; her plugged or production casing is cemented in; seemented from below any usable water to surface within 120 DAYS of spud date.
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prlor</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of or pursuant to Appendix "B" - Eastern Kansas surface casing of the state of the surface of the surfa	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set to into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; per plugged or production casing is cemented in; permented from below any usable water to surface within 120 DAYS of spud date, order #133,891-C, which applies to the KCC District 3 area, alternate II cementing
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of the operator of pursuant to Appendix "B" - Eastern Kansas surface casing must be completed within 30 days of the spud date or the well	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; the many usable water to surface within 120 DAYS of spud date, order #133,891-C, which applies to the KCC District 3 area, alternate II cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of the operator of pursuant to Appendix "B" - Eastern Kansas surface casing must be completed within 30 days of the spud date or the well	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set at into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; per plugged or production casing is cemented in; becamented from below any usable water to surface within 120 DAYS of spud date, order #133,891-C, which applies to the KCC District 3 area, alternate II cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of the organization of the spud date or the well ereby certify that the statements made herein are true and correct March 3, 2008	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; the many usable water to surface within 120 DAYS of spud date, order #133,891-C, which applies to the KCC District 3 area, alternate II cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of or pursuant to Appendix "B". Eastern Kansas surface casing must be completed within 30 days of the spud date or the well ereby certify that the statements made herein are true and correct March 3, 2008.	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set et into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; ere plugged or production casing is cemented in; elemented from below any usable water to surface within 120 DAYS of spud date, order #133,891-C, which applies to the KCC District 3 area, alternate II cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.  It to the best of my knowledge and belief.  Owner
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prlor</i> to spudding of well; 2. A copy of the approved notice of intent to drill <i>shall be</i> posted 3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee 4. If the well is dry hole, an agreement between the operator and 5. The appropriate district office will be notified before well is eith 6. If an ALTERNATE II COMPLETION, production pipe shall be cor pursuant to Appendix "B". Eastern Kansas surface casing must be completed within 30 days of the spud date or the well bereby certify that the statements made herein are true and correct that:  March 3, 2008  Signature of Operator or Agent:	on each drilling rig;  If be set by circulating cement to the top; in all cases surface pipe shall be set to into the underlying formation.  If the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; the member of the best of the kCC District 3 area, alternate II cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.  If to the best of my knowledge and belief.  Owner  Remember to:
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of the or pursuant to Appendix "B" - Eastern Kansas surface casing must be completed within 30 days of the spud date or the well ereby certify that the statements made herein are true and correct the:  March 3, 2008  Signature of Operator or Agent:  Complete Com	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set to into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; the emented from below any usable water to surface within 120 DAYS of spud date, order #133,891-C, which applies to the KCC District 3 area, alternate II cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing. It to the best of my knowledge and belief.  Owner  Remember to:  File Drill Pit Application (form CDP-1) with Intent to Drill;
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of the or pursuant to Appendix "B" - Eastern Kansas surface casing must be completed within 30 days of the spud date or the well sereby certify that the statements made herein are true and correct the:  March 3, 2008  Signature of Operator or Agent:  For KCC Use ONLY  API # 15 - 185-23511-0000	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; the plugged or production cashing is cemented in; the emented from below any usable water to surface within 120 DAYS of spud date. File plugged. In all cases, NOTIFY district office prior to any cementing.  It to the best of my knowledge and belief.  Owner  Remember to:  File Drill Pit Application (form CDP-1) with Intent to Drill;  File Completion Form ACQ-1 within 120 days of spud date:
is agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prlor</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of the operator of pursuant to Appendix "B" - Eastern Kansas surface casing must be completed within 30 days of the spud date or the well hereby certify that the statements made herein are true and correct water.  March 3, 2008  Signature of Operator or Agent:  For KCC Use ONLY  API # 15 - 185 - 23511-0000	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set at into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; the emented from below any usable water to surface within 120 DAYS of spud date, order #133,891-C, which applies to the KCC District 3 area, alternate II cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.  It to the best of my knowledge and belief.  Owner  Remember to:  File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date; File acreage attribution plat according to field proration orders;
is agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prlor</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of the organization of the spud date or the well must be completed within 30 days of the spud date or the well nereby certify that the statements made herein are true and correct ate:  March 3, 2008  Signature of Operator or Agent:  For KCC Use ONLY  API # 15 - 185 - 23511-0000  Conductor pipe required Nore feet	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; the meaning of the plugged or production casing is cemented in; the meaning shall be plugged. In all cases, NOTIFY district office prior to any cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.  It to the best of my knowledge and belief.  Owner  Remember to:  File Drill Pit Application (form CDP-1) with Intent to Drill; File Completion Form ACO-1 within 120 days of spud date; File acreage attribution plat according to field proration orders; Notify appropriate district office 48 hours prior to workover or re-entry;
is agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prlor</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of the operator of pursuant to Appendix "B" - Eastern Kansas surface casing must be completed within 30 days of the spud date or the well hereby certify that the statements made herein are true and correct ate:  March 3, 2008  Signature of Operator or Agent:  For KCC Use ONLY  API # 15 - /85 - 23 5 // - DOOO  Conductor pipe required  More feet  Minimum surface pipe required  Feet per ALT [4]	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; the meaning of the plugged or production casing is cemented in; the meaning shall be plugged. In all cases, NOTIFY district 3 area, alternate II cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.  It to the best of my knowledge and felicf.  Owner  Remember to:  - File Drill Pit Application (form CDP-1) with Intent to Drill; - File Completion Form ACO-1 within 120 days of spud date; - File acreage attribution plat according to field proration orders; - Notify appropriate district office 48 hours prior to workover or re-entry; - Submit plugging report (CP-4) after plugging is completed (within 60 days);
is agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prlor</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be of the operator of pursuant to Appendix "B" - Eastern Kansas surface casing must be completed within 30 days of the spud date or the well hereby certify that the statements made herein are true and correct water.  March 3, 2008  Signature of Operator or Agent:  For KCC Use ONLY  API # 15 - 185-23511-0000  Conductor pipe required	on each drilling rig;  I be set by circulating cement to the top; in all cases surface pipe shall be set into the underlying formation.  I the district office on plug length and placement is necessary prior to plugging; her plugged or production casing is cemented in; her plugging is completed (within 60 days); her plugging is completed (within 60 days); her plugging or injecting salt water.
s agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prlor</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. The minimum amount of surface pipe as specified below <i>shall</i> through all unconsolidated materials plus a minimum of 20 fee  4. If the well is dry hole, an agreement between the operator and  5. The appropriate district office will be notified before well is eith  6. If an ALTERNATE II COMPLETION, production pipe shall be corpursuant to Appendix "B". Eastern Kansas surface casing must be completed within 30 days of the spud date or the well ereby certify that the statements made herein are true and correct mate:  March 3, 2008  Signature of Operator or Agent:  Conductor pipe required  None feet  Minimum surface pipe required  Approved by:  Full 3-508  This authorization expires:  3-509	on each drilling rig;  If be set by circulating cement to the top; in all cases surface pipe shall be set to into the underlying formation.  If the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; the member of the plugged or production casing is cemented in; the plugged of production and cases, NOTIFY district office prior to any cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.  The prior plugged of plugged of production (form CDP-1) with Intent to Drill;  File Completion Form ACO-1 within 120 days of spud date;  File acreage attribution plat according to field proration orders;  Notify appropriate district office 48 hours prior to workover or re-entry;  Submit plugging report (CP-4) after plugging is completed (within 60 days);  Obtain written approval before disposing or injecting salt water.  If this permit has expired (See: authorized expiration date) please check the box before and return to the address below.
is agreed that the following minimum requirements will be met:  1. Notify the appropriate district office <i>prlor</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted  3. If the district office on plug length and placement is necessary prior to plugging; the plugged or production casing is cemented in; the member of the plugged or production casing is cemented in; the plugged of production and cases, NOTIFY district office prior to any cementing shall be plugged. In all cases, NOTIFY district office prior to any cementing.  The prior plugged of plugged of production (form CDP-1) with Intent to Drill;  File Completion Form ACO-1 within 120 days of spud date;  File acreage attribution plat according to field proration orders;  Notify appropriate district office 48 hours prior to workover or re-entry;  Submit plugging report (CP-4) after plugging is completed (within 60 days);  Obtain written approval before disposing or injecting salt water.  If this permit has expired (See: authorized expiration date) please check the box before and return to the address below.

# IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

Plat of acreage attributable to a well in a prorated or spaced field

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

Operator: J.W. Williamson Oil Co.	Location of Well; County: Stafford  1,650   Feet from N / S Line of Section
Lease: Dove	1,650 feet from N / S Line of Section  990 feet from E / W Line of Section
Well Number:	Sec. 30 Twp. 23 S. R. 13 E W
	3. 18 <u></u>
Number of Acres attributable to well: NE/4 _ SW/4 _ NW/4	ls Section: Regular or Irregular
	If Section is irregular, locate well from nearest corner boundary.

### In plotting the proposed location of the well, you must show:

API No. 15. 185-23511-0000

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.

NOTE: In all cases locate the spot of the proposed drilling locaton.

- 3. The distance to the nearest lease or unit boundary line (in footage).
- If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).

RE: Dril

Drilling Pit Application Dove Lease Well No. 1 NW/4 Sec. 30-23S-13W Stafford County, Kansas

Dear Mr. Williamson:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed <u>without slots</u>, the bottom shall be flat and reasonably level and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as the Hutchinson Salt section has been drilled through and displacement of the fluids into the reserve pit has occurred. The fluids should be removed again as soon as practical after drilling operations have ceased. **Keep pits away from draw.** 

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 225-8888 when the fluids have been removed. Please file form CDP-5 (August 2004), Exploration and Production Waste Transfer, within 30 days of fluid removal. Conservation division forms are available through our office and on the KCC web site: www.kcc.state.ks.us/conservation/forms.

A copy of this letter should be posted in the doghouse along with the approved Intent to Drill.

If you have any questions or concerns please feel free to contact the undersigned at the above address.

Sincerely,

Kathy Haynes

Department of Environmental Protection and Remediation
