Dear Operator:

The purpose of this letter is twofold. First, this letter is to notify you that the Conservation Division has received your plugging proposal, form CP-1, for the above well and has reviewed the proposal for completeness. The central office will now forward your CP-1 to the district office listed below for review of the proposed plugging method. **Please contact the district office for approval of your proposed plugging method at least five (5) days before plugging the well, pursuant to K.A.R. 82-3-113(b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit in accordance with K.A.R. 82-3-600.**

This letter is also to notify you that during the central office's review of your CP-1 for license number verification, staff has discovered that you are not the current operator of record of the above well on file with the Conservation Division. **Central office staff is therefore requesting that you verify that you are the operator of record of the above well. The proper procedure for verifying operator authority is by filing a Conservation Division form T-1 (Request for Change of Operator; Transfer of Injection or Surface Pit Permit).** If a T-1 has already been filed with the Conservation Division reflecting the transfer of operator authority, please disregard this paragraph. If a T-1 has not been filed reflecting the transfer, please see the attached letter, which explains the T-1 filing process.

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well. Furthermore, this notice in no way constitutes authorization to plug the above well by persons not having legal rights of ownership or interest in the well.

This notice is void after October 8, 2008. The CP-1 filing does not bring the above well into compliance with K.A.R. 82-3-111 with regard to the Commission's temporary abandonment requirements.

Sincerely,

Steve Bond

ORDER

Now, the above-captioned matter comes before the State Corporation Commission of the State of Kansas on the motion of staff to dismiss its application without prejudice. In support of its motion, staff maintains that the Neel #1, located 1980 feet from the South line and 660 feet from the East line, in Section 4, Township 29 South, Range 12 West, in Pratt, County, Kansas, as never being converted to a injection well and remains equipped with production equipment.

Being duly advised, the Commission finds that staff's motion should be granted.

IT IS, THEREFORE, BY THE COMMISSION ORDERED that the above-referenced application of **Interior Oil Corporation**, dated **February 1, 1996**, be, and the same is hereby, dismissed without prejudice.

Any party affected by this Order may file with the Commission a petition for hearing pursuant to K.S.A. 77-537. Such petition shall be filed within three (3) days after service of this order and must state the specific grounds upon which hearing is requested. This petition for hearing shall be filed with the Director of the Conservation Division, Finney State Office Building, 130 South Market, Room 2078, Wichita, Kansas 67202.

The Commission retains jurisdiction of the subject matter and the parties for the purpose of entering such further order or orders as
