Notify the appropriate district office <i>prior</i> to spudding of well;  2. A copy of the approved notice of intent to drill <i>shall be</i> posted on each did.  3. The minimum amount of surface pipe as specified below <i>shall be set</i> by through all unconsolidated materials plus a minimum of 20 feet into the city.  4. If the well is dry hole, an agreement between the operator and the district.  5. The appropriate district office will be notified before well is either plugged.  6. If an ALTERNATE II COMPLETION, production pipe shall be cemented on the completed within 30 days of the spud date or the well shall be provided by the completed within 30 days of the spud date or the well shall be provided by the completed within 30 days of the spud date or the well shall be provided by the complete of the determinant of the determinant of the complete of the complet	CONSERVATION WICHITA, recirculating cement to the top; in all cases surface pipe shall be set underlying formation. It office on plug length and placement is necessary prior to plugging; do reproduction casing is cemented in; from below any usable water to surface within 120 DAYS of spud date. 3,891-C, which applies to the KCC District 3 area, alternate II cementing lugged. In all cases, NOTIFY district office prior to any cementing. It of my knowledge and belief.  President  Title:  President  Title:  President  Submit plugging report (CP-4) after plugging is completed (within 60 day Obtain written approval before disposing or injecting salt water.  If this permit has expired (See: authorized expiration date) please check the box below and return to the address below.	2008 I DIVISION KS

#### IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

Plat of acreage attributable to a well in a prorated or spaced field

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

API No. 15 - 109-20815.0000					
Operator: Russell Oil, Inc.	Location of Well: County: Logan				
Lease: McDaniel M	1,670 feet from N / S Line of Section				
Well Number: 1-28	1,010 feet from X E / W Line of Section				
Field: wildcat	Sec. 28 Twp. 15 S. R. <sup>34</sup> E X W				
Number of Acres attributable to well:  QTR/QTR/QTR/QTR of acreage: Approx - NW - SE - NE	Is Section: Regular or Irregular				
	If Section is Irregular, locate well from nearest corner boundary.  Section corner used: NE NW SE SW				

PLAT
(Show location of the well and shade attributable acreage for prorated or spaced wells.)
(Show footage to the nearest lease or unit boundary line.)

#### NOTE: In all cases locate the spot of the proposed drilling locaton.

#### In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
