RE: Alternate II Completion
Boone #2-34
API# 15-179-20,934
SW/4, Sec. 34-8S-26W
Sheridan County, Kansas

Dear Sirs:

Attached are the Alternate II Cementing tickets for the above captioned well. The ACO-1 was filed March 15, 1989 prior to the cementing operations.

The production casing was cemented through a port collar set at 2123' with 425 sacks of Halliburton Lite cement on May 5, 1989. A temperature survey was run May 6 which indicated a cement top between 650' and 700'. After conferring with your office an additional 150 sacks were pumped down the backside on May 8, 1989. The well was then returned to production.

If you have any questions, please advise.

Sincerely,

LANDMARK OIL EXPLORATION, INC.

William R. Horigan/kw
