	RECEIVED KANSAS COR	PORATION COMMISSION
	DAVIT KANSAS CORPORATION COMMISSION	•
The undersigned hereby affirms that the drilling, completion and eventual plugg	ging of this well will comply with K.S.A. 55 et. seq.	L 142008
It is agreed that the following minimum requirements will be met:	JUL 1 4 2008	
 Notify the appropriate district office prior to spudding of well; 		RVATION DIVISION
2. A copy of the approved notice of intent to drill shall be posted on each d	rilling rig; CONSERVATION DIVISION	WICHITA, KS
3. The minimum amount of surface pipe as specified below shall be set by	circulating cement to the top; WISHDERS Surface pipe shall be set	
		1
through all unconsolidated materials plus a minimum of 20 feet into the u	inderlying formation.	
4. If the well is dry hole, an agreement between the operator and the district	it office on plug length and placement is necessary <i>prior to pluggir</i>	
4. If the well is dry hole, an agreement between the operator and the district 5. The appropriate district office will be notified before well is either plugged 6. If an ALTERNATE IL COMPLETION, production pipe shall be cemented to	at office on plug length and placement is necessary <i>prior to pluggir</i> d or production casing is cemented in; from below any usable water to surface within 120 DAYS of spud da	ng; te.
 If the well is dry hole, an agreement between the operator and the district. The appropriate district office will be notified before well is either plugged. If an ALTERNATE II COMPLETION, production pipe shall be cemented to or pursuant to Appendix "B" - Eastern Kansas surface casing order #133 	at office on plug length and placement is necessary prior to plugglid or production casing is cemented in; from below any usable water to surface within 120 DAYS of spud da 3,891-C, which applies to the KCC District 3 area, alternate II cemen	e g; ite. nting
4. If the well is dry hole, an agreement between the operator and the district 5. The appropriate district office will be notified before well is either plugged 6. If an ALTERNATE IL COMPLETION, production pipe shall be cemented to	at office on plug length and placement is necessary prior to plugglid or production casing is cemented in; from below any usable water to surface within 120 DAYS of spud da 3,891-C, which applies to the KCC District 3 area, alternate II cemen	e g; ite. nting
 If the well is dry hole, an agreement between the operator and the district. The appropriate district office will be notified before well is either plugged. If an ALTERNATE II COMPLETION, production pipe shall be cemented to or pursuant to Appendix "B" - Eastern Kansas surface casing order #133 	at office on plug length and placement is necessary <i>prior to plugglid</i> or production casing is cemented in; from below any usable water to surface within 120 DAYS of spud da 3,891-C, which applies to the KCC District 3 area, alternate II cemen lugged. In all cases, NOTIFY district office prior to any cementing	e g; ite. nting
4. If the well is dry hole, an agreement between the operator and the district 5. The appropriate district office will be notified before well is either plugged 6. If an ALTERNATE II COMPLETION, production pipe shall be cemented for pursuant to Appendix "B" - Eastern Kansas surface casing order #133 must be completed within 30 days of the spud date or the well shall be phereby certify that the statements made herein are true and correct to the best	at office on plug length and placement is necessary prior to plugglid or production casing is cemented in; from below any usable water to surface within 120 DAYS of spud da 3,891-C, which applies to the KCC District 3 area, alternate II cemerally cemerally compared in all cases, NOTIFY district office prior to any cementing st of my knowledge and belief.	o g; ite. nting j.
4. If the well is dry hole, an agreement between the operator and the district 5. The appropriate district office will be notified before well is either plugged 6. IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

Plat of acreage attributable to a well in a prorated or spaced field

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

SEWARD CO.

NOTE: In all cases locate the spot of the proposed drilling locaton.

In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections,
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- 4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).
