Describe in detail the manner in which the well is plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same depth placed from (bottom), to (top) for each plug set.

Well was plugged by Consolidated Oilwell Services, Inc.. Hooked up to wellhead and established injection rate.

Mixed and pumped 20 sacks of 50/50 poz with 6% gel cement and 15# of cotton seed hulls directly down casing. Well pressured up to 1100# PSI. Shut in well with cement to top.
