CONSERVATION DIVISION WICHITA, KS

NOTE: In all cases locate the spot of the proposed drilling locaton.

In plotting the proposed location of the well, you must show:

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- 4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).

Attn: Mr. Rick Hesterman

Re: Andes "A"-1 OWWO

26-33S-5E Cowley Co., KS

Mr. Hesterman.

This well is an OWWO and has 157' of 8-5/8" surface casing set. I am requesting an exception to Table I surface casing requirement of 200 feet for this area. The 2 options for completion requested are to allow the existing 157 feet of 8-5/8" as surface casing necessary or complete as Alternate II completion. My preference would be to allow the existing 157 foot of 8-5/8" to be sufficient.

Please process or contact me with any questions or concerns.

Respectfully

Troy A. Phillips

Geologist

AUG 0 6 2008

CONSERVATION DIVISION WICHITA, KS

Kathleen Sebelius, Governor Thomas E. Wright, Chairman Michael C. Moffet, Commissioner Joseph F. Harkins, Commissioner

August 12, 2008

Phillips Oil Properties 1822 S. Mead Wichita, KS 67211

Re: Andes "A" #1 OWWO SW-NE Sec. 26-33S-R5E, Cowley County, Kansas

Dear Mr. Phillips:

The Kansas Corporation Commission has received your request, dated August 6, 2008, for an exception to Table 1 surface pipe requirements for the above-referenced well, which was originally drilled as the Andes "A" #1 in 1976 and plugged in 1996 by Range Oil Company, Inc. From your request, the KCC understands that Phillips Oil Properties desires to re-enter this well, which has 157' of surface pipe set. The Table 1 minimum surface pipe requirement for wells drilled in this part of Cowley County is 200'. The surface pipe set in this previously plugged well does not meet the present surface pipe setting depth requirements.

After review of this matter by technical staff it was determined that:

- 1. Bedrock at this location is the Permian Chase Group at pr near surface.
- 2. A review of water well records indicated that deepest water well within approximately one mile of the Andes "A" #1 is 60 feet deep.
- 3. The existing 157' of surface casing adequately protects fresh and usable ground water.

Based on this information, an exception is granted for the Table 1 Minimum Surface Casing Requirements with the following stipulation:

1. In the event the well is dry and no additional production pipe has been cemented in-place, plugging will be performed according to KCC rules per KCC District #2 requirements.

Sincerely.

Doug Louis Director
