Gentlemen:

A recent check of our plugging file indicated an incomplete record for the plugging of the Grecian Well No. 1, located C N/2 NW/4 NW/4 of Section 17, Township 10 South, Range 21 West, Graham County, Kansas. This well was drilled to a total depth of 3985 feet, completed as a dry hole and was plugged and abandoned July 29, 1959. A Notice of Intent to Drill card was filed and signed by Mr. D. G. Hansen and was received in this office July 21, 1959.

Will you kindly check in your files and see if it would be possible to send us the well plugging application form, well log and well plugging record for the plugging of this well. If this office received these forms, they have been mis-filed. However, there are indications in our file that no request was ever made from this office for the forms.

Your cooperation in regard to this matter will be greatly appreciated, as we desire to have a complete plugging file for the drilling and plugging of the above described well.

Very truly yours,

  
S. S. Greider
