Was an artificial liner used? Yes No

If no, how were the sides and bottom sealed to prevent downward migration of the pit contents?

The fresh water pit was lined, the drilling pit was a native clay mixture, which did not allow for downward migration of contents.

Abandonment procedure of pit:

Water was removed from the pit as per a KCC written request and requirement, also a CDP-5 was filed on August 7th, 2007 (or thereabouts), the pits were then allowed to dry and were backfilled by Total Lease Service, Inc.; 1309 Toulon Ave.; Hays, KS 67601 on June 10, 2008, Inv. #3016.
