Type of Pit: <input type="checkbox"/> Emergency Pit <input type="checkbox"/> Burn Pit <input type="checkbox"/> Settling Pit <input checked="" type="checkbox"/> Drilling Pit <input type="checkbox"/> Workover Pit <input type="checkbox"/> Haul-Off Pit	Pit Location (QQQQ): NE NE SE NW Sec. <u>3</u> Twp. <u>8S</u> R. <u>21</u> <input type="checkbox"/> East <input checked="" type="checkbox"/> West <u>1630</u> Feet from <input checked="" type="checkbox"/> North / <input type="checkbox"/> South Line of Section <u>2540</u> Feet from <input type="checkbox"/> East / <input checked="" type="checkbox"/> West Line of Section <u>Graham</u> County

Date of closure: July 1, 2008

Was an artificial liner used? Yes No

If no, how were the sides and bottom sealed to prevent downward migration of the pit contents?

Natural seal using Barite mud during drilling operations helped provide a seal to any significant water migration.

Abandonment procedure of pit:

Dan's Dirt Works, dozer operator, worked on site several times- punched holes in walls of pits that were still wet, pushing them in when the pits were dry. Natural contour of the surface was restored to original condition per the landowners approval.

The undersigned hereby certifies that he / she is President for Gateway Resources, LLC (Co.), a duly authorized agent, that all information shown hereon is true and correct to the best of his /her knowledge and belief.
