Was an artificial liner used? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
If no, how were the sides and bottom sealed to prevent downward migration of the pit contents? At the time of exploration, the pit was coated and sealed with fresh mixed drilling mud and during that operation salt and liquid fluids were removed and hauled out of pit.	
Abandonment procedure of pit: The pit was allowed to dry naturally and upon the inspection of the KCC's district #2 office (Mr. Steve VanGieson) the pit was backfilled with the same native soil from original digging.
