IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

Plat of acreage attributable to a well in a prorated or spaced field

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

Re: Eastern Kansas Surface Casing Order

Dear Mr. Henry,

The EastemKansas Surface Casing Order#133891C for Area 2, paragraph 2, states, "No well shall be drilled closer than 660 feet of an existing domestic or municipal water well without written owner notification, a copy of which must be attached to the drilling intent form during filing. Special casing and cementing requirements may be imposed in those areas producing fresh and usable water."

Based on information supplied by the Kansas Geological Survey, we believe you have a water well within 660 feet of our proposed gas well, Henry 24-2, located 610' FNL, 797' FWL of 24-34N-14E, Montgomery County, Kansas.

This document shall serve as landowner notification in accordance with the above referenced regulation.

Please feel free to contact me if you have any questions regarding this notice.
