Comments: <p>We spudded the Wittry#2 well on 10-28-08. We requested and received an extension to decide to plug or complete the well. Over this time the fresh water in the Witty#2 drill pit evaporated. We hauled the fresh water from the Zastrow #1-A to the witty #2 in advance of completing the Wittry#2 as follows. On 12-28-08 we set the drill rig back over the Wittry#2 and reamed the hole to bottom. After conditioning the hole we plugged off the bottom from 962' up to 580'. Ran 570' of casing and cemented to surface. The drilling fluids in the Wittry#2 pit have nearly all evaporated at this point.</p>
