IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

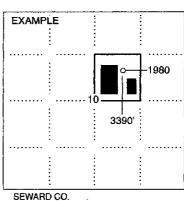

Plat of acreage attributable to a well in a prorated or spaced field

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

API No. 15 - 077-21675-00-00	
Operator: M & M Exploration, Inc.	Location of Well: County: Harper
Lease: Ferda	2,475 feet from N / N S Line of Section
Well Number: 1-5	2,250 feet from X E / W Line of Section
Field:	Sec. <u>5</u> Twp. <u>35</u> S. R. <u>5</u> E X W
Number of Acres attributable to well: 200 QTR/QTR/QTR/QTR of acreage: NE - NW - NW - SE	Is Section: Regular or Itregular
	If Section is Irregular, locate well from nearest corner boundary. Section corner used: NE NW SE SW

PLAT
(Show location of the well and shade attributable acreage for prorated or spaced wells.)
(Show footage to the nearest lease or unit boundary line.)

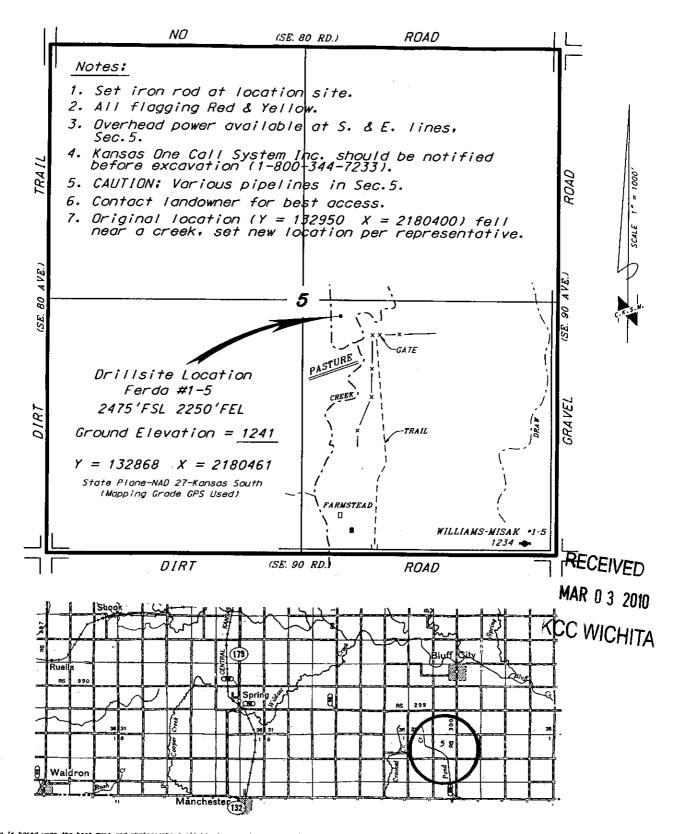

NOTE: In all cases locate the spot of the proposed drilling locaton.

in plotting the proposed location of the well, you must show.

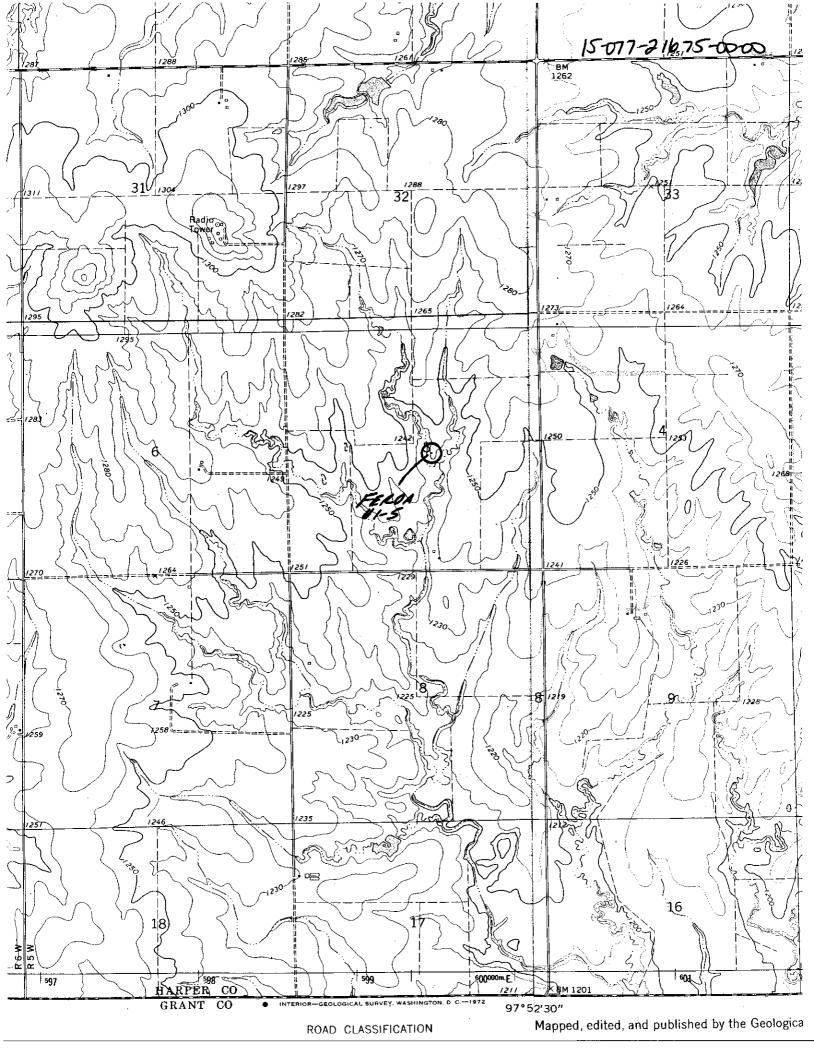

- 1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
- 2. The distance of the proposed drilling location from the south / north and east / west outside section lines.
- 3. The distance to the nearest lease or unit boundary line (in footage).
- If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached: (C0-7 for oil wells; CG-8 for gas wells).

Controlling data is based upon the best maps and photographs available to us and upon a regular section of land containing 640 acres.

February 19, 2010

cticing in the state of Konsas. The section corners, which establish the precise section lines, and the state of Konsas. The section corners, which establish the precise section lines, and the necessarily located, and the exact location of the drillsite location in the section is governited. Re:

Drilling Pit Application Ferda Lease Well No. 1-5 SE/4 5-35S-5W

Harper County, Kansas

Dear Mr. Austin:

District staff has inspected the above referenced location and has determined that an unsealed condition will present a pollution threat to water resources.

District staff has recommended that the reserve pit be lined with bentonite, constructed <u>without slots</u>, the bottom shall be flat and reasonably level and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as the Hutchinson Salt section has been drilled through and displacement of the fluids into the reserve pit has occurred. The fluids should be removed again within 72 hours after drilling operations have ceased.

If production casing is set all completion fluids shall be removed from the working pits daily. NO completion fluids or non-exempt wastes shall be placed in the reserve pit.

The fluids should be taken to an authorized disposal well. Please call the District Office at (316) 630-4000 when the fluids have been removed. Please file form CDP-5, Exploration and Production Waste Transfer, within 30 days of fluid removal. Conservation division forms are available through our office and on the KCC web site: www.kcc.ks.gov/conservation/forms/

A copy of this letter should be posted in the doghouse along with the approved Intent to Drill. If you have any questions or concerns please feel free to contact the undersigned at the above address.

Sincerely,

Jonelle Rains, Supervisor

Soselle Prairo

Department of Environmental Protection and Remediation
