RE: LEASE: DEMEL 1-28  
LEGAL: 1320'FSL-500'FWL 28-13S-13W  
COUNTY: RUSSELL  
API NO: 15167234410000

Dear Mr. Callewaert:

This letter is to inform you that you have been granted an extension of time in which to close the drilling pits associated with the drilling of the Demel 1-28 well.

The original 365 days for closure expired July 6, 2008. This extension will expire March 10, 2010. We urge you to make every effort to close these pits within this time frame. In the event there is water standing in these pits, please dewater and dispose of fluids in an authorized disposal facility to expedite closure. Extension of this time frame automatically extends the time period for filing the Closure of Surface Pit form.

*Failure to close the pit or request an additional extension prior to the expiration date may result in a fine in accordance with K.A.R. 82-3-602(a). An additional extension will only be granted for good cause and after K.C.C. field staff has made an inspection of the site. Should field staff discover that said pit has been closed before the date of extension request, an administrative penalty may be assessed to you through K.C.C. invoice.*

If you have any questions in this regard, please do not hesitate to contact Jonelle Rains at (316) 337-6226.

Very sincerely yours,

Doug Louis  
Director

Sec 28, T13S, R13W  
Russell County, Kansas

Dear Mrs. Rains,

Please accept my apologies again for allowing time to close the pit on this hole to expire without closure or an application for another extension of time. The working pits and fresh water pit have been closed and the reserve pit has been partially closed but not completely closed yet. There is still some water in the reserve pit that needs to dry. If we could get it to stop raining for a month we could get this done. The contractor we have hired to do this work, Langfeld Dirt Service, was called again today and reminded that this work needs to get done as soon as possible. Unfortunately, they indicated today that the last time they checked this pit it was still too wet to close. Please give us another extension of time and we will continue to make every effort to close this pit completely and properly as quickly as possible.

Thanks for your assistance.

Very truly yours,  
Eagle Creek Corporation

Dave Callewaert  
President
