**RECEIVED
SEP 10 2009
KCC WICHITA**

Date of closure: Aug 2009

Was an artificial liner used? Yes No

If no, how were the sides and bottom sealed to prevent downward migration of the pit contents?
Bentonite from the drilling mud was used to seal the bottom and sides of the pit. Any salt water was hauled off.

Abandonment procedure of pit:
The pit was cut and allowed to dry. The pit was squeezed as it dried. The pit was then back filled and the surface was restored with original topsoil and recontoured.

The undersigned hereby certifies that he / she is _____ **Manager** _____ for **Gilbert-Stewart Operating LLC** (Co.), a duly authorized agent, that all information shown hereon is true and correct to the best of his /her knowledge and belief.
